Lykke comes from a well-known Danish farm called LYKKE, he is the son of the danish bull Emil (son of Campari PP). Iceman was imported to the Czech Republic at age of 14 months, during the basic selection he received 86 points for exterior. Iceman is a bull with very good growth ability (weights at 210 days 471 kg, weights at 365 days 773 kg). He has got an excellent muscularity and body length. He is suitable for heifers. Lykke's semen was collected at our station and there was big interest in it not only in the Czech Republic.
