Genetic evaluation information for Pedigree Aberdeen-Angus Cattle is available on www.aberdeen-angus.co.uk

The above mentioned animal is accepted for entry in this Society's Herd Book on the understanding that such entry may be cancelled if it is subsequently found that the information supplied by the breeder is inaccurate.

This Certificate is issued with full reliance upon information provided by the breeder and therefore is not a guarantee by The Aberdeen-Angus Cattle Society.

The allele sizes reported are in accordance with International ISAG Nomenclature.

PARENTAGE STATUS: DNA analysis qualifies the above parentage

Comment: Alleles were identified by a panel of internationally recognised markers on each sample to give a parentage testing efficacy rate in excess of 99.99%, using sire, dam and offspring. Absence of one parent reduces the efficacy in parentage verification

DATE TESTED: 09/09/2016

Rebecca M. Weld, PhD.

8th December 2017
